

Chicago Paper Money Exposition Public & Mail Bid Auction #161

Friday, February 14, 1997 - 6:00 PM

Where historic paper collections of the world are researched, auctioned, bought and sold.

TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalogue.
- 3) Bids less than 50% of the estimate **will not be accepted.**
- 4) We reserve the right to withdraw any lot prior to sale.
- 5) All successful bidders shall be billed for postage, handling and insurance.
- 6) **We cannot be responsible for the loss of any merchandise shipped outside the United States.**
- 7) **All framed items are shipped at the purchaser's risk.**
- 8) SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**
- 9) A SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 10) United States coins and currency will not, in conformity with law, be opened at less than face value.
- 11) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 12) In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.
- 13) **All bids must be in whole dollar amounts; this includes percentage increases.**
- 14) **Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.**
- 15) No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**
- 16) Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. Credit cards will not be accepted for auction purchases.
- 17) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
- 18) If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE in procuring judgment shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
- 19) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.
- 20) In the event of dispute, the auctioneer's decision is final.
- 21) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 22) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 23) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
- 24) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 25) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 26) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.
- 27) All material in this catalogue is unconditionally guaranteed to be genuine.
- 28) No lots may be returned by floor bidders except for non-authenticity.
- 29) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 30) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 31) The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.
- 32) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

CONDITION TERMINOLOGY FOR CURRENCY

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

Choice Unc. (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.

Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.

Good - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

Abt (before a grade) - A shade below the grade it precedes.

Plus or + (following a grade) - A shade better than the grade.

VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.

VF/Good (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

TERMINOLOGY FOR STOCKS & BONDS

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair - A certificate with extreme handling, fold splitting, stains, small pieces or tears.

Fine - Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) - The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) - Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) - A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.

Extremely Fine+ (EF+) - As made, or nearly so.

All certificates are **Very Fine** unless otherwise mentioned.

The Confederates occupied Columbus, Kentucky, which was a very strong position covering the Mississippi River. Grant's brilliant attack on Forts Henry and Donnelson broke the center of the Confederate line and General Polk at Columbus was compelled to beat a hasty retreat for fear of being trapped in his advanced position. In the process, he opened the river to Union gunboats and nearly half of his demoralized force deserted.

Obsolete Currency

Selections of Obsolete Currency Formerly From A Significant Institutional Collection

R.M. Smythe & Company is pleased to be able to offer selections from the November, 1996 sale of the Western Reserve Historical Society's obsolete paper money and other related items. All the notes appearing in this section were part of that important offering.

The Western Reserve Historical Society sale was important for a variety of reasons. Only one other sale of obsolete currency surpasses it in dollar amount sold and that was the American Bank Note Company Archives a few years back. The Society has done a service to the collecting community by making the notes available to the collecting fraternity.

The Society's holdings were an important source of listings and photographs for a number of the Society of Paper Money Collectors obsolete books particularly in the South, but also elsewhere. The bank notes from that collection are heavily featured in the Haxby books. This prominence came from the fact that the original acquirer was a true collector, not a mere accumulator. The collection was formed with a view of getting as complete a collection as possible. The person who initially put this together had a keen knowledge of plate positions and other nuances in the field, well before anyone gave thought to their study. For these reasons we feel notes from this collection should bring a strong premium.

Unfortunately the need to sell the entire holding over the short span of three auction sessions necessitated lotting the material into large groupings. Many collectors were thus unable to acquire needed items because to do so would require purchasing unwanted notes. Here is an opportunity to acquire these important notes, lotted in a way that should make them much easier to bid on.

This and the next several Smythe sales will contain notes from the Western Reserve's former holdings. Please be sure to look over the Mail Bid Only section in this catalogue (and subsequent ones) carefully. These lots contain other high quality and sleeper notes which were in much larger lots from the original sale.

Alabama

- 1084 *Sommerville*. Morgan County. \$1, \$3, \$5. Unlisted 1865-7 period notes. C.O. Jones, 76 Cedar St. NYC. Blue on white. U. EF, all notes folded at the right with right side handling. **First we have seen.** [3] (Photo) (\$600-Up)

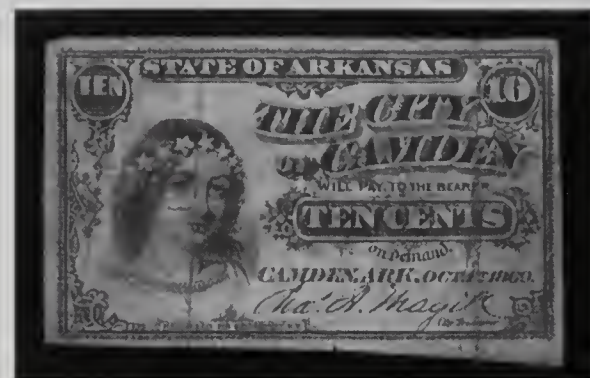

Probably prepared in 1865 before the Union occupation authorities were instructed not to allow such issues as being in violation of Federal law. The justification for such issues was that with the de monetization of the Confederate and state currencies and the insolvency of the banks and many other note issuers, there was a total absence of any circulating medium and in consequence a total paralysis of trade.

- 1085 *Tuscaloosa*. Augustin Lynch. 1866 Note Group. [6] (\$400-Up)
1-6) 5 Cents, 10 Cents, 25 Cents, 50 Cents, \$1, \$2. (R-327-1,2,3,4,5,6). U. All green, with printed signatures. EF, right side fold. Note the issued by "Military Authority" text at top. These notes turn up from time to time, the dollar denominations being much scarcer than the fractionals.

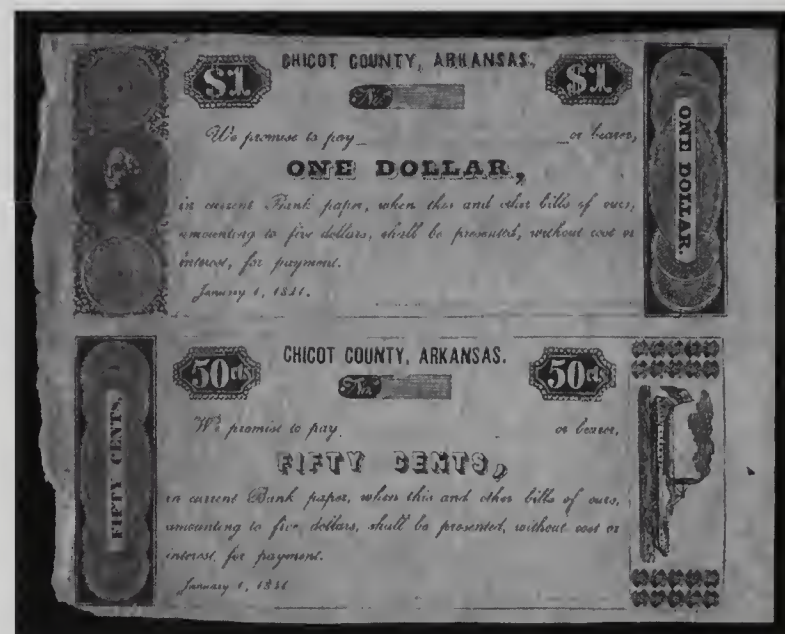

- 1086 *Tuscaloosa*. T.B. Snow, Jno Cummings et al, per the Bank of the State of Alabama. **25 Cents.** (R-328-3). R-6 (almost certainly low) VG, glassine tape repair in the torn lower right corner. (Photo) (\$250-Up)
The bank was insolvent in 1837 and was subsequently put into liquidation, so that the number of scrip notes issued upon it in the 1837-1841 period is rather small.

Arkansas

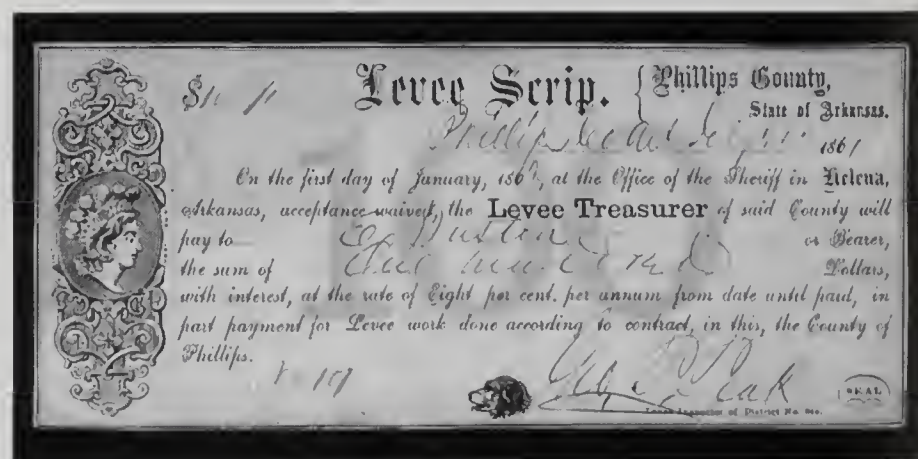

- 1087 Corporation of Benton. **50 Cents.** (R55-2). Plate piece. R-7. **Fair**, pieces out of the left border and the top right corner. Otherwise, **Abt VG.** (\$125-Up)

- 1090 *Helena*. County of Phillips. **\$100.** (R278-1). R-7. Rothert plate note. **Abt VF**, four or so folds. (Photo) (\$400-Up)
Issued July 20, 1861 during the war and thus a Confederate item.

- 1091 *Helena. County of Phillips. \$1000. (R278-3). R-7. Rothert Plate Note. VF-EF, two vertical folds. (Photo) (\$500-Up)*
We have only known one \$1000 obsolete from Arkansas. This is dated July 20, 1861, and is therefore a Confederate item.

- 1092 *Little Rock. City of Little Rock. \$2. Certificate of Indebtedness. (R424-3). R-7. VG, much above the usual ratty grade for this elusive issue. (Photo) (\$200-Up)*

- 1270 *Portland. Bank of Cumberland. \$3. (ME-445, G-36). Full red tint. DW. VG, soft, but attractive looking. Very much an R-6 or rarer note. (Photo) (\$250-Up)*

With the fall of Washington in late 1814, the Bank finding itself short of specie (just like everybody else) ordered stock notes (quick to get) from MDF and issued these hand issued and signed bills while awaiting their printed name notes from MDF which arrived later (these listed in Haxby). No 799. **VG**, plus but the lower right corner is eroded (eaten by mice!), the upper right corner is rounded. **Rare.** 2) \$20. DW. (Walton 6). No. 295. Would be **VF**, but the mice have eaten away the upper left to the "XX", and there is a small body hole at the right. A small group of these appeared with the much larger hoard of low grade small denominations. Very few \$10's or \$20's are still available, and those are damaged worse than these.

1-50) \$2. (NJ-495, G-4 and G-4a). Justice, beehive and "2". Mixed varieties. Average **EF**, plus, the majority **Unc.**, but with minor mis-handling. Super note for style, age and fully issued by the quasi-bank. Ultimate retail should be at least \$30.00 plus a note!

This unusual note is the first of it's kind we have ever seen. At first you would think this was a 1837 era satire note, but the date is 1853. It is not a scrip note, nor a bank note. Why this was created is unclear, but we do know it is rare and interesting.

- 1309 **Jamestown. Jamestown Bank. \$1.** Like 2b, red "ONE" with ABC monogram. **Fine**, plus. Sharp looking note. (Photo) (\$250-Up)

- 1310 **Lockport. Lockport City Bank. \$3.** (NY-1250, 6b SENC), this with a "THREE" in red not "3-3". Solid **VG**. (Photo) (\$300-Up)

Corn Exchange Bank of New York City Group

The Corn Exchange Bank was founded to assist in operations of the wheat exchange. In October 1907, the embarrassment of this bank in its efforts to stabilize prices of the commodity exchanges forced J.P. Morgan to intervene on the Bank's behalf. In 1929, it merged with the Chemical Bank as the Chemical Corn Exchange Bank. The Corn Exchange part of the name was dropped in the 1950's and this bank by corporate succession is now part of Chase Bank.

The notes which follow are part of a group which recently turned up and which numbered approximately 80 pieces, scattered among 17 denominations and main varieties thereof. We sold several proofs in the last sale. Included here is the rest of the group, with the exception of a few pieces being held for our Memphis sale. Most of those notes are in the smaller denominations.

- 1311 *New York. Corn Exchange Bank. \$1. (NY-1555, G-2d). Red "1" in circle. Proof, on card. Unc., POC with wide borders. (\$250-Up)*
Only \$1 proof example in the group.

- 1312 *New York. Corn Exchange Bank. \$3. (G-6a). Red lazy "3". Proof on card. Unc., POC, wide borders. (Photo) (\$250-Up)*
Only \$3 proof example in group.

- 1313 *New York. Corn Exchange Bank. \$5. D. (G-8a). Unlisted red "5" in large circle. Proof, on India paper only. AU, POC, some wrinkling. (\$200-Up)*

The \$5 notes came in a sheet of four. Each plate letter had a different form of overprint style.

- 1314 *New York. Corn Exchange Bank. \$5. (G-8b). Unlisted Red "5-5" at each end. Fine, small POC. (Photo) (\$250-Up)*

The only example of this type in the entire group and the first we have seen. Nice style, bold vanity signatures and a light purple "Paid" stamp in the center.

- 1315 *New York. Corn Exchange Bank. \$10. (G-10a). Red "X" in medallion. Proof on card. Unc., POC. (\$250-Up)*

- 1316 *New York. Corn Exchange Bank. \$50. (G-12a). Red "50" in large target. Proof on card. Unc., POC. (Photo) (\$350-Up)*
One of two examples from the group.

- 1317 *New York. Corn Exchange Bank. \$100. (G-14b). Red "100" top center. Proof on card. Unc., POC. (Photo) (\$375-Up)*
Only example of this variety present.

- 1318 *New York City's Corn Exchange Bank Collection Group. [8] (\$500-Up)*

1) \$1. (NY-1555, G-2c). Abt VG, POC, purple stamp, tear hole in one punch hole. 2) \$2. (G-4d). Fine, POC, stamped, a few pinholes. 3) \$3. (G-6c). VG-Fine, POC, paid stamp, green smears on back. 4) \$5. (G-8). VG, POC, stamped, pin holes. 5) \$5. (G-8a). ABN imprint. Abt VG, POC, stamped, pin holes. 6) \$10. A. Unlisted variety with two men at center as on the \$1 notes; DB imprint, with ABN monogram. VG, POC, pin holes, stamped. 7) \$10. A. Similar, but ABN imprint. Abt Fine, POC, stamped, a few scattered pin holes. 8) \$10. B. (G-10). Abt VG, soiled right, POC, stamped. One of only two in this group, and the nicest.

- 1319 *New York. Corn Exchange Bank. \$1. (NY-1555, G-2c). G-VG, POC, stamped, soiled with pin holes. [8] (\$300-Up)*
A total of twelve pieces were found in this group.

- 1320 *New York. Corn Exchange Bank. \$2. (G-4d). These notes range from Good up to Abt Fine, with two torn and put back together. G-VG, would be a fair average. POC, stamped, pin holes. [21] (\$650-Up)*
A total of 25 pieces were found.

- 1321 *New York. Corn Exchange Bank. \$3. (G-6c, one C-6c). G-VG, POC, stamped, pin holes. The counterfeit is pen cancelled. [10] (\$350-Up)*
Note one anomaly; the plate A notes have the ABN imprint on the right and the B notes have the imprint on the left. There were 13 genuine notes found.

- 1322 *New York. Corn Exchange Bank. \$5. A,B,C,E. (G-8c). Unlisted. ABN imprint. G-VG, POC, stained, stamped, pin holes. [6] (\$250-Up)*

There were ten fives in this group. One had the DB imprint alone; two had the DB imprint with the ABN monogram; two had the red side panel protectors and the remaining five had the ABN imprint. The issued \$10 notes were sold in the October sale. This is basically the end of the hoard with the exception of a few choice condition notes and a few rare varieties.

- 1323 *New York* Eighth Avenue Bank. \$1. (NY-1575, G-2). **Proof**, on India paper. **Unc.**, POC, a slight tear in the india by a POC, ABN stamp. (\$100-Up)

- 1324 *New York* United States Accelerating Steam Navigation Co. \$5/5 Shares. 1851. Durand & Co. Red "FIVE" in block letters. **VG**. (\$350-Up)

At center, the "Dove", a lighter than air ship in a framed and supported vignette. The steam engines of the time were too heavy to get it off the ground. Because of the California Gold Rush, the firm really wanted to get off the ground, but ships like this had to wait until the late 19th Century before becoming feasible.

- 1325 *New York City*. C.L. Van Allen. 50 Cents. 48 New Street. 1870's, style as a partial mimic of third series fractionals. Washington center, green back. **Good-VG**, soiling, small body voids. (\$200-Up)
New Street runs parallel to Broadway and right behind our office here in the financial district.

- 1326 *Roslyn*. Postal Note. September 13, 1883. Seven Cents. Number 1. Gold on yellow paper, blue back. Postmarked on first day. **HLB. EF. (Photo)** (\$350-Up)
Not only number one for the town, but the town is on Long Island!

- 1327 *Mohawk Bank of Schenectady* Copper Printing Plate. (\$750-Up)
This four subject printing plate is by MDF, c. 1810-1820 period. The denominations are \$10-5-2-1 (NY-2540, G-50, 40, 30, 18 all **SENC**) from top to bottom. Only the C-18 \$1 note is listed for a description. Each position has the same Indian paddling a canoe, but in different directions, an unusual counterfeit deterrent since it would require a pretty good memory not to be fooled by a raised \$1 to a \$10 note, which was a common practice by the bad guys. Above average condition and **Uncancelled!** This would probably clean well and print very well.

North Carolina

- 1328 *Elizabeth City*. Farmers Bank of North Carolina. \$3. (NC-10-G-2). **Proof**, on card. **Unc.**, POC, light aging and an ABN stamp on the back of card. (**Photo**) (\$300-Up)

Unusual Bank Hoard Bundles

- 1334 *Farmers Bank of Buck's County* Mixed \$1 and \$2 Bundle. (\$750-Up)
These are the 1841 relief note issues listed in Haxby (under Hulmville, though the notes are dated at Bristol). This original bundle has a label marked \$1,000. It is 6.5 cm thick and weighs 542 Grams. A guess would be there are 600 some notes, but there is no way to be certain until the bundle is separated. This group and the next three must be examined carefully for condition. All are low grade, **Good** or so and bank hammer cancelled. They are absolutely **Sold as is; No Returns**.
- 1335 *Farmers Bank of Buck's County* Mixed \$1 and \$2 Bundle. A second banded bundle. (\$650-Up)
Same issue, this marked \$800, so less notes than the last. 6.5cm thick, 523 grams. The notes don't seem as compacted as the last bundle. Must be seen, all **CC**, **Sold as is; No Returns**.
- 1336 *Farmers Bank of Buck's County* Mixed \$1 and \$2 Bundle. A third banded bundle. (\$750-Up)
This is a \$1,000 face bundle, similar to the first. 5.5 cm thick, 525 grams. Perhaps more \$2's in this bundle. Condition as last two; **Sold as is; No Returns**.
- 1337 *Farmers Bank of Buck's County* Mixed \$1 and \$2 Notes, a Broken Bundle. (\$450-Up)
This group has no band and shows how the unpicked bundles are constructed. Within each are separate smaller groups of stringed together notes, perhaps \$100 at a time. This group weighs 347 grams, but due to expansion the thickness is not comparative for figuring the quantity as the last three. Condition as last **Good**, or so, **CC**. **Sold as is; No Returns**.
- 1338 *Early Bank Cancel Hammer*. (\$250-Up)
A first time offering for us and the first we have seen. With the banknote hoard came the hammer that canceled the notes. The front looks like just a regular mason's hammer, the back is the crossed "X" as cancelled on the notes. A small group of notes was probably put together and given a good whack on an anvil or a die with the reverse impression of the hammer. Overall length is 20cm, weight 755 grams. A very interesting piece of financial history.
- 1339 *Dudley*. Private Store Scrip. \$1. 1860's. Unlisted denomination. Green. Train center, Woman left. Small eagle. **Unc.**, one small POC. (\$200-Up)

- Meyer Guggenheim** was a real giant in the mining industry although he did not become involved with minerals until 1887 when he was nearly 60 years old. He purchased some mining stock from friends, and then proceeded to inspect the Colorado mines in person. Guggenheim realized that the real profits in mining would be made by those who controlled the ore processing plants. This was the same strategy that John D. Rockefeller followed in the oil business. Guggenheim built smelters in Colorado and Mexico, and a refinery at Perth Amboy. When silver prices declined in 1893 most smelters associated themselves with the American Smelting & Refining Company, but Guggenheim remained independent. He succeeded by lending money to miners, subscribing to their stock, and helping them in any way he could, thereby earning their trust, and their business. He established the Guggenheim Exploration Company in 1899 and utilized it to participate in every major ore discovery throughout the world. In 1901 American Smelting relinquished control to the Guggenheims, and Meyer's worldwide mining and smelting empire was complete.
- Through the years, Meyer Guggenheim has been an elusive autograph for collectors of financial history. While two Meyer Guggenheim certificates, both on another railroad, have appeared within the last year, we believe the supply to be very limited. One appeared in our November 1996 St. Louis auction and realized \$4,750 plus 10%. Another (from the same consignor) appeared in our January 1997 Strasburg Sale (results not available as this is being written.)
- This example, from an estate, is the only one our consignor had.

Pullman Palace Car Archive Selection

(Property of the Newberry Library.)

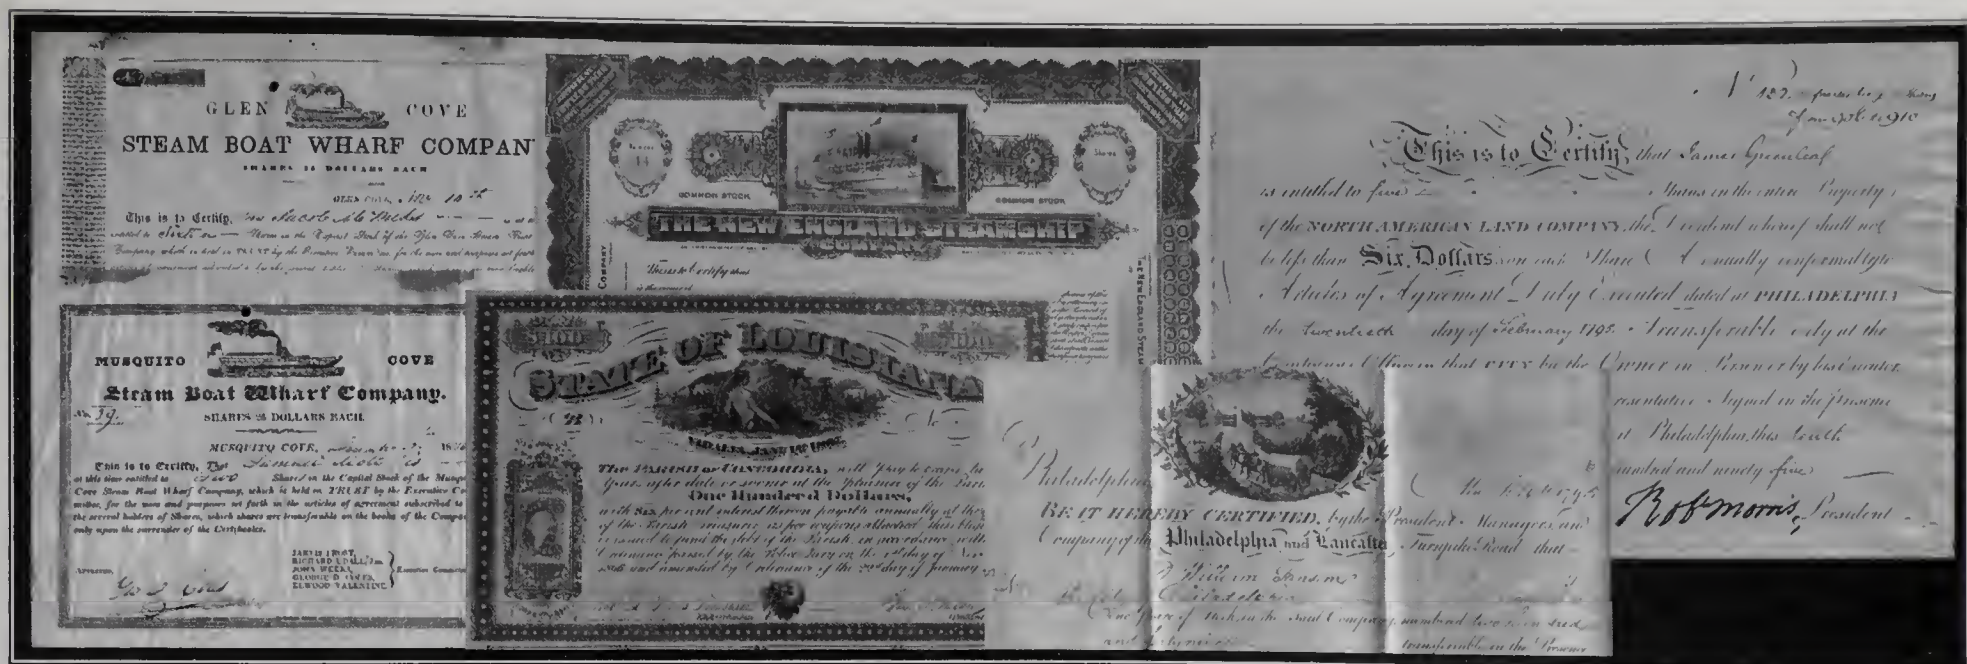

Sold by the Order of the Trustees to Augment the Permanent Book Funds.)

George Mortimer Pullman developed the first successful sleeping car and revolutionized long distance train travel. The new sleeping cars he constructed featured fold-down berths, luxurious interior furnishings, and service with a smile. The cars travelled from one railroad to another, allowing the passengers to relax throughout their entire journey. The idea was a remarkable success. A portion of the archives of the Pullman Palace Car Company were given to the institution mentioned above. Our first offering from this archive appeared in our January 1996 Strasburg Sale and was well received.

Rare Compound Interest Treasury Note

- 1465 \$10. 1864. Compound Interest Treasury Note. Fr.190-b. August 15, 1864 overprinted in red. Very Fine, perhaps better, and thus rare. (Photo) (\$3500-Up)

Issued during the War Between the States as an emergency measure, these notes bore interest at the rate of six per cent, compounded semi-annually, starting from the date overprinted in red on the face. A redemption table appears on the back indicating that three years after issue the holder would received \$11.94. Since the interest stopped at maturity it only made sense to cash the notes in immediately. That explains why few exist and why Friedberg states "All notes of this issue are very rare today and are seldom seen."

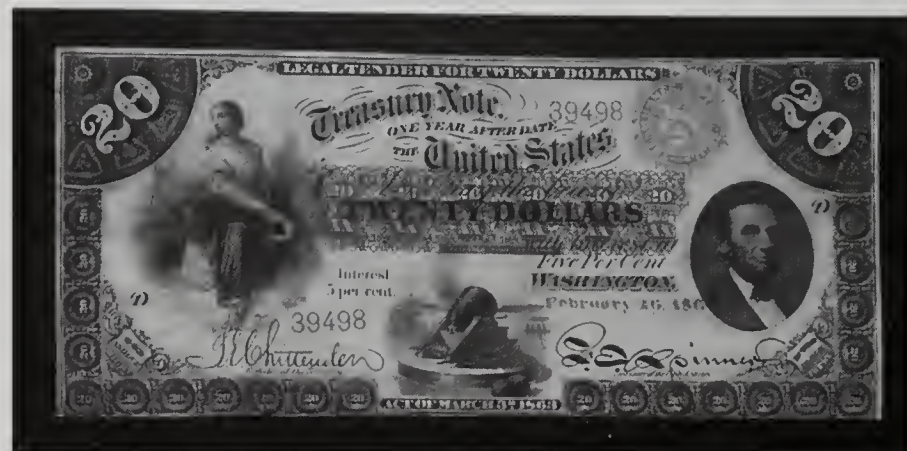

"...rarest of all issues of American Currency."

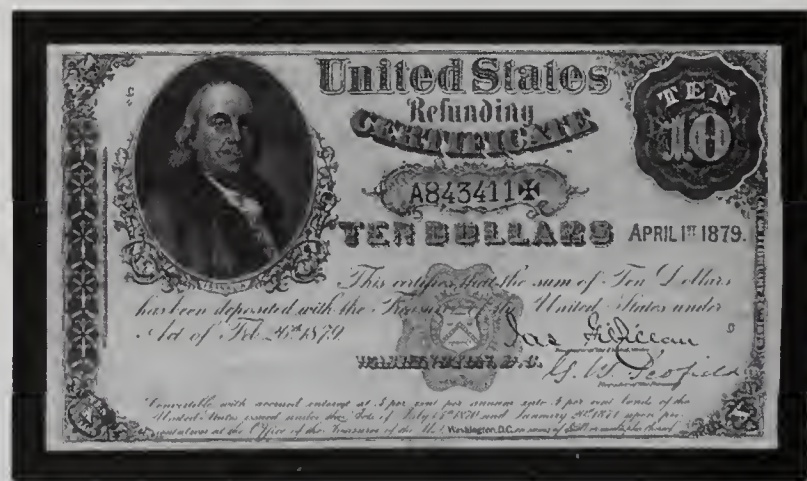

- 1466 \$10. 1863. One Year Interest Bearing Note. Fr.196. March 26, 1864 overprint date, perhaps unique as such. No.52239. Fold splits reinforced on the back with tape, but this note has the color and overall eye appeal of a Fine example. (Photo) (\$3500-Up) (Continued)

Interest Bearing Notes were issued in response to the financial emergency brought on by the War Between the States. The Act of March 3, 1863 provided for this new type of \$10 note which could be redeemed at the end of a year for the principal amount plus five per cent interest. It made no sense whatever to retain these notes after they reached maturity, and almost all were redeemed.

Some of the notes were printed by the Bureau of Engraving and Printing (Fr.196a), and the others, including this example, were produced by the American Bank Note Company. In *United States Paper Money Records* 1989 by Gengerke a total of only thirty-four notes of either variety were known, and only five were ABN printed, and one of these was a proof. According to Friedberg "The Interest Bearing Notes are the rarest of all issues of American Currency. Even advanced collectors after many years of ardent search will not have had the pleasure of seeing one of these notes."

- 1467 \$20. 1864. One Year Interest Bearing Note. Fr.197a. February 26, 1864 overprinted in red. While some minor fold splits have been skillfully repaired, this note has the overall eye appeal of a Very Fine, making it one of the nicest affordable examples available to collectors today. (Photo) (\$2500-Up)

- 1468 \$10. 1879. Refunding Certificate. Fr.214. No.A843411. Choice Very Fine. A clean, crisp and lovely example for this grade. (Photo) (\$1000-Up)

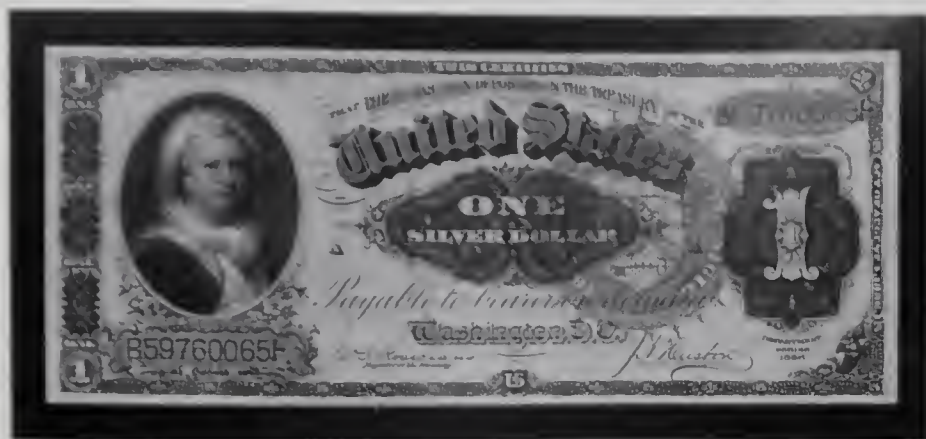

These certificates bore interest at the rate of four per cent for an unlimited period of time and could be converted into four percent bonds when presented in sums of \$50. Two variations were issued, the other, Fr.213, is almost unobtainable.

- 1469 \$1. 1886. Silver Certificate. Fr.215. No.B5561568. VF, light stains. (\$200-Up)

- 1528 **Federal Vignette Book, Completely Rebound. (\$750-Up)**
U.S. Treasury Department Specimens, Bureau of Engraving and Printing, Washington, D.C. A completely rebound book, not complete, missing the large size NBN backs and others. Contains Portraits (69), Allegoricals (23), Buildings (7), Ships (9), and Others (20). Most used for bank notes. Also includes two frontis vignettes, and the engraved title page. The book has been beautifully rebound in black cloth, with red spine bands and gold imprinting. The pages have their original spacing leaves and gilt edges. Because of the rebinding it is much easier to look at than an original book with a delicate spine and other problems inherent to these books. An opportunity to purchase a desirable piece of Federal Currency related history at a fraction of the price of a choice original.

CONTINENTAL NATIONAL BANK.

CAPITAL \$2,000,000.

Chicago. Aug.14th, 1896.

Messrs. Thomas & Co.,
Peoria, Ill.

Gentlemen:-

As requested in yours of the 11th we
enclose one new Silver Certificate #670500. \$1.00

Yours Respectfully,

W. A. Thomas

- 1591 \$1. 1896. Silver Certificate. Fr.224. No.670500. Crisp Uncirculated, two pinholes. Fresh, crisp, and strictly original. (Photo) (\$650-Up)

The designs on the new "Educational" series of silver certificates were a radical departure from the series of portraits that appeared on the preceeding issues. In 1896, when they first were issued, Continental National Bank received a request for a nice, new one dollar silver certificate and the assistant cashier complied. This lot consists of the silver certificate and the typewritten note stating "As requested in yours of the 11th we enclose one new Silver Certificate #670500. \$1." A lovely note, and an impeccable provenance.

HOW TO GET THE BEST RESULTS WHEN BIDDING IN A MAIL BID SALE

Bidding in mail bid auctions can sometimes be a real challenge, but mail bid auctions are real opportunities for collectors to acquire items that may be hard to obtain any other way. Experience has taught us ways to minimize frustrations, and maximize results, and we would like to share some of those ideas with you. Here are the questions we are asked most often and some of the suggestions we have made to bidders. We think they will save you time, money and help you win lots you might otherwise miss.

"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."

Lots are available at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't be there, here is how we can help you get a better idea of what you are bidding on:

- 1) **Call us, and we will be happy to have one of our experts describe any lot you ask about.**
- 2) **We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge.**
- 3) **If you have established credit with us we may be able to ship lots to you for direct viewing.**

Please realize that requests for phone assistance, for copies or for shipping lots directly to you **must be arranged well in advance of the closing date of the sale.**

"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."

There is an easy way to solve this problem. It is called a **"limit" bid sheet**. Let's look at an example. Mr. Smith collects Confederate notes and he sees that there are over thirty lots he would like to buy. His budget is \$1,000, but the estimates on the thirty lots he likes adds up to well over \$5,000. If he bids on all thirty he might win them all and exceed his budget. To be safe, he bids on only ten, and he wins only one lot for a \$100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. **He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet.** Here is how it works:

Mr. Smith bids on **all thirty lots** he is interested in. He writes at the bottom of his bid sheet **"Please limit my total bids to \$1,000."** Every time Mr. Smith wins a lot we keep track of his total spending. When the total reaches \$1,000 we will stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

There is a special advantage to limit bidding in a mail bid sale - the bids can be listed in order of your preference. List the lots you want most first.

"I see that there are two similar lots in the sale. I want only one of them, not both of them."

This problem can be solved with an **"OR"** bid. Let's assume that Lot #101 and Lot #102 are identical. You wish to bid \$200 on either one, but you don't want both.

Write the following on your bid sheet and you can accomplish your goal:

"#101 OR #102 at \$200"

If you win Lot #101 we will cancel your bid on #102.

"What if there are three similar lots and I only want one?"

"#101 OR #102 OR #103 at \$200" will work perfectly.

"When I don't win a lot I often seem to lose it by just a few dollars. It almost looks as if someone knows what I am bidding and they bid a little more. What is going on?"

Every auction house has its own way of closing a mail bid sale. Some houses will tell bidders exactly how much the highest bid is at any given moment right up until the end of the sale. We feel this is unfair, because anyone who is able to get through by phone near the end of the sale can top anyone else. If auctions are closed in this manner, clients who are "friends of the house" have a distinct advantage and can top other bidders at the end. Those who bid early are at a disadvantage. To eliminate this problem **we don't give out information on what the highest bid is.** We advise bidders to bid exactly as much as they are willing to spend on a lot, and where possible, if they win a lot we reduce their bids to an increment just above the next highest bidder (there are exceptions - please see the Terms of Sale).

We think this method is fair to everyone involved, but it does result in bidders sometimes losing lots by \$1, or \$5 at times. If Mr. Jones bids \$100 on an item and Mr. Smith bids \$101, we have no choice but to award the lot to Mr. Smith for \$101.

"I bid \$30 on a lot that was estimated at \$100 and I didn't get the lot. Later, when I got the Prices Realized the lot was reported as unsold. Why didn't I get the lot?"

The Terms of Sale state that bids less than 50% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "...regular market value..." of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.

We hope these questions and answers have been helpful, and if you have any comments, suggestions, or further questions concerning R. M. Smythe auctions, please feel free to call us at 800-622-1880, or 212-943-1880.

Obsolete Currency

Selections of Obsolete Currency From A Significant Institutional Collection

R.M. Smythe & Company is pleased to be able to offer further selections from the November, 1996 sale of the Western Reserve Historical Society's obsolete paper money and other related items. All the notes appearing in this section were part of that important offering.

As we stated in our introduction to the Public portion of this catalogue, the collection was the formation of a serious student of the area, way ahead of his time as far as knowledge. The Mail Bid lots that follow are evidence of the quality and care of this collector in acquiring notes. Many of these notes are Haxby Plate Notes or were used as illustrations or are the research notes used in the SPMC series of state books. Therefore, many of the listed notes may well be unique.

The Western Reserve's collection contained the most extraordinary Philadelphia scrip notes we have ever seen. Not even the Muscalus holdings could compare with them. The Philadelphia City and County loans of the 1830's era are a very complicated series. When Hooper attempted to catalogue them, he didn't find a useful structure to lay them out and hence the listings are difficult for beginners (and specialists) to follow. From our observations, we saw many notes from this series we had not seen before including a private scrip note with a Polar Bear!

Both have 2 Cent blue "Bank Check" adhesive revenues at left. Clark, Gruber operated a private mint in Denver until bought out in 1864 by the Federal Government. The head office in Denver became the First National Bank. Historical and territorial gold coin related.

- 5234 **KY. Paducah.** Paducah Industries Committee. \$1. (KY185-1). **Unc, POC,** samples of stamps on back. (\$100-Up)

Letter in 1935 explaining that this bill was not used as emergency money but was supposed to be used to promote local industry. Given to the Western Reserve Historical Society in 1935.

The great thing about Louisiana notes is that sometimes the uglier they are, the more valuable they get. Not the case with New York or Massachusetts. This sleeper turned up in New England.

- 5236 **LA. New Orleans.** Exchange Bank. \$10. (G-6). **Good-VG**, but seriously aged, heavily nibbled at the right edge. Endorsed on the face, faded merchant stamp on the back. (\$90-Up)

These issued notes should not be mistaken for those nominally issued at Bishop Hill. Kewanee was in Iowa.

- 5240 **NE. Omaha.** Western Exchange Fire and Marine Insurance Co. \$1, \$2, \$3, \$5. 1856. As last two note stamped. **VG** or so, all intact. [4] (\$75-Up)

The Western Exchange hoard (from 1995) has been largely dispersed. The initial group when first seen was rather ravaged by mice. The \$1 notes were the scarcest and very few could be considered high grade. These notes have a great deal going for them combining striking vignettes, wild west history and years from now we'll appreciate the high grade ones that survive.

Nebraska Rarity

- 5241 **NE. Omaha.** Western Exchange Fire & Marine Insurance Co. \$10. **Abt VG**, a couple of left edge chinks and a small punch hole at the right. **(Photo)** (\$250-Up)

Probably the nicest example still available. These were virtually unheard of before the hoard. The quantity that remained intact was so small in relation to the \$1, \$2, \$3 and \$5 notes, that the choice ones were eagerly absorbed by collectors who appreciated their scarcity.

These notes are somewhat anomalous. They apparently were to be used in northern France during the German occupation, the denominations being too small for the Second World War and are therefore thought to be for the First war.
